ARKANSAS ELECTIO.  
t's Fa se Economy  
to put good fruit up in poor jars. It's poor policy for a merchant to sell them at any price. We handle the two best makes one can find--the "Lightning" because we think it is the best, and the genuine "Mason" because so many people know it and like it.  
From factory to Bangor by the carload--do you wonder we sell them so cheaply as others sell the so-called "just as good"?  
P. H. VOSE & CO., 59 MAIN STREET.

**PEARLINE**  
comes first, in washing. What is the use of making the work easy, as long as it's risky or dangerous? What does it matter how little a thing costs, or how many prizes you get with it, if it rots and ruins the clothes? It can't be that you want to take any chances. Use Pearline. Nothing has ever been used for washing or cleaning is more absolutely harmless than Pearline. It gives you the easiest, the quickest, the most thoroughly economical work.

Following is a copy of one of the leases used by John P. Altgeld, President of the Unity Company, Chicago, and is the form of lease printed and used by said company. The John P. Altgeld, who is the President of the Unity Company, is the same person who is the head and front of the free silver agitation. Publically he is in favor of free silver, but in his own private business he demands and will not accept anything but gold coin in payment of his rents. Is this honest? Let the voter decide.

This is to Certify, That The Unity Company, a corporation, etc., of the City of Chicago, County of Cook and State of Illinois, have demised and leased, and do hereby demise and lease unto Henry S. Goldsmith, James McCarthy, of the City of Chicago, Room No. 844 to 845 on the Eighth story of the Unity Block, situated on Dearborn Street in the City of Chicago, State of Illinois, to be used and occupied by said Goldsmith and McCarthy as law offices and for no other purpose, for the term of Three years from the first day of May, 1894, to the Thirtieth day of April, 1897, at the rent of Three Thousand (3000) Dollars, payable in standard gold coin of the United States, in equal installments of \$83.33 1/3 monthly in advance, on the first day of each and every month during and for the said term, at the office of said Company, in Chicago, or such other place in Chicago as the lessor may direct.

And it is a condition of this letting, that the said lessee shall not assign this lease, nor let, or sublet, or further lease, or any part thereof, nor use the same or permit the same to be used for any other purpose than as above described, nor make any alterations therein without written consent of the lessor first had and obtained; and that all additions, fixtures or improvements which may be made by the lessee to said premises, except movable office furniture, shall be the property of the lessor and shall remain upon and be surrendered with the premises as a part thereof; at the termination of this lease; and further, that all personal property in the demised premises shall be at risk of lessee only, and lessor shall not be liable for any damage to said personal property, to said premises or to said lease, arising from bursting of water or steam pipes, or from any act or neglect of co-tenants or other occupants of the building, or any other persons, and that the rules and regulations regarding the use of the said building which are printed on the other side hereof, shall be part and parcel of this lease, during the continuance of this agreement, and shall be in all things observed and performed by the said lessee and their clerks and servants.

It is also agreed that the lessee shall be furnished, free of charge, with heat from 8 A. M. until 6 P. M. Sunday and legal holidays excepted, from October 1st until May 1st, from the apparatus for heating the building, and it is understood and agreed that, if during the continuance of this agreement, the said premises should be damaged or destroyed by fire, or by any other cause, so that the lessee shall not be repaired by the lessor within thirty days thereafter, it shall be deemed that the lessee has accepted this agreement, and, in case of any such cancellation of this lease, the lessee shall be liable for the day of such fire.

In Witness Whereof, said Corporation has caused its name to be signed and its Corporate Seal affixed hereto, this Sixth day of February, one thousand eight hundred and ninety-two.

THE UNITY COMPANY.

By JOHN P. ALTGELD, President.

of the Chicago platform. It was a Democratic speech and a Democratic opinion of what the Commercial is trying to push down the throats of the members of the party in this State as Democratic doctrine. It is not considering very well in this city what we are great of the party, and unless we are great, it will learn next Monday evening that the repudiation campaign in Maine has not been a howling success anywhere.

## Means Loss to Labor.

In his speech in this city George Fred Williams referred to Andrew Jackson as that "grand old Populist" and attempted to array him on the side of free silver, when as a matter of fact, had Andrew Jackson been alive he would have been kicked out of the Chicago convention as were other sound money men. Here is a sentence from Jackson's message to Congress:

A DEPRECIATION OF THE CURRENCY IS ATTENDED BY A LOSS TO THE LABORING CLASSES.

The election of Bryan means a depreciation of the currency and a consequent loss to the laboring men; the purchasing power of whose wages will shrink one-half. Democratic laboring men who are invited to vote the Bryan ticket, or its representative in this State next Monday, the Frank ticket, should remember these words written by Andrew Jackson:

## Bryanism and Labor.

Candidate Bryan addressed a gathering of laboring men on Labor Day in Chicago. This required a marked degree of nerve on Mr. Bryan's part. Bryanism has cost the laboring men of this country a great deal in the past three years, for it has cost them the money which they need to live on. It has cost them the money which they need to live on. It has cost them the money which they need to live on.

It will be seen that the Democratic majority in Arkansas was simply a matter of counting. The Democrats feared an honest election and they arranged a program by which they could manufacture any majority. So far as an expression of popular sentiment is concerned, the election judges might as well have declared the result a week ago. The contrast between the two States is instructive.

The Difference to Farmers. The Commercial desires to know how a protective tariff that protects is going to benefit the producer or transportation lines. We might answer our contemporary in general terms by saying that it would benefit them exactly in the same way that a tariff on lumber which the proprietor of that paper was so anxious to have retained that he traveled all the way to Washington to labor with the members of his party, did and would benefit the lumber industry. What is the condition of that industry to-day as a result of the very legislation which the proprietor of the Commercial so earnestly labored against, after the election?

The Commercial asks what difference it makes to the farmer whether he has a duty of \$4 or \$2 a ton on hay. It makes just this difference. In 1892 under the McKinley law there were imported into this country \$4,026,000 of hay valued at \$800,633; in 1893 \$1,581,881 tons valued at \$1,452,872; in 1894 276,538 tons valued at \$2,001,704. That is quite an item to the farmer. As a matter of fact since 1892, the year when this country was hit by the very zenith of its prosperity, the loss to the farmers in the shrinkage of live stock was \$723,829,384; loss on crops in the same period \$728,731,879, or a total loss to the farmer since they have been suffering from the menace of a Democratic tariff and its actual operation of \$1,452,872,704. These figures represent what the Democratic tinkering has cost the farmers of the country, the Maine farmers coming in for their full share.

Give this country a tariff policy that will restore business confidence, start the lumber mills of Maine running to the full extent of their capacity, open the doors of the factories to labor at remunerative wages and the farmers will have a market for all their produce and the transportation lines will have sufficient business to re-employ the thousands of men all over the country who have been laid off as a result of Democratic tinkering. The gratifying features of this campaign is that the farmers appreciate just what is the trouble with the country and decline to be misled by the sophistries of the free silver advocates. That is just what the result of Vermont meant, and that result will be emphasized by the voters of Maine next Monday.

Democratic Questions for the Commercial. Apparently "Bos" was so busy preparing his speech with which to woo away his free silver brethren that he forgot to ask the Commercial a few questions. The Commercial, as a rule, has enough of its own troubles to attend to, but it is not the Commercial's business to ask the voters of Maine next Monday.

BRYAN'S LETTER.

Accepts the Nomination of the Democrats.

Nominee's Utterances Along the Lines of Unsound Money, Repudiation, Destruction of the Government and Dishonor.

Lincoln, Neb., Sept. 9.—Mr. Bryan made public his letter accepting the Democratic nomination. His full text follows:

I, Stephen M. White and other members of the national committee of the Democratic Party, have the honor to inform you that I have accepted the nomination of the Democratic Party for President of the United States.

The New Block, with its shapely crown and generally excellent make-up, adapts itself particularly to the City Trade.
